Koverton NOW

Introducing...

Koverton[®] NOW

Q: What is Koverton NOW?

A: Koverton NOW was designed and intended to attract customers who desire shorter lead times with minimal customization.

Q: What is the standard lead time?

A: Orders will normally ship within 3-5 business days.

(If inventory has been depleted and goods are either on water or in production, we will contact you or the customer to provide an updated lead time.)

Q: What are the available finishes and fabric selections?

A: The Clarity and the Hexi will come in one frame finish and 2 Sunbrella fabric selections. The Grid and Tilt will come in two frame finishes and 1 Sunbrella fabric selection (see selections on last page).

Q: Can the customer customize?

A: Yes, but then the order will no longer be considered a NOW order. The customer will be able to order cushion covers made in Los Angeles and may choose from our entire fabric offerings. With this option, the customer will receive their new customized cushion cover along with the original cushion cover that comes with the item.

***NOTE:** Custom orders will have a standard lead time of approximately 6-8 weeks (dependent on fabric selected and availability). Customer will have the option to receive the frames and original cushions made overseas first, and the custom covers can be sent when they are completed. Shipping & handling charges for the custom covers will be an additional fee.

Koverton[®] NOW

Q: When will these collections be available?

A: Items are on hand and available right now.

Q: How will the 30% Tariff effect Koverton NOW?

A: We will have a separate line item for the tariff and will only add 5% to the frame and cushions. Any custom covers will not have tariff fees.
